**Announcement from the CEO: New Chief Technology Officer at Frauscher Sensor Technology globally**  
*St. Marienkirchen bei Schärding/Poland: Andrzej Bartnik takes over as new Chief Technology Officer at Frauscher Sensor Technology globally*

I am pleased to announce that Andrzej Bartnik has been appointed as Chief Technology Officer at Frauscher Sensor Technology globally. In his newly appointed role, Andrzej will be primarily tasked with overseeing and developing our technologies, thereby further consolidating Frauscher's position as the market leader in its segment.

Andrzej initially joined the organization in 2019 as the Managing Director of Frauscher Poland, bringing with him extensive knowledge and experience from previous managerial roles across the rail sector. Andrzej's comprehensive understanding of the axle counting technology, coupled with his clear future vision and forward thinking means he is very well positioned to further bolster our innovative capabilities, ensuring that our solutions will continue to meet and exceed all customer expectations. It is noteworthy to mention that Andrzej will also continue in his current role as the Managing Director of Frauscher Poland.

Prior to joining Frauscher, Andrzej Bartnik worked in several key strategic roles at Bombardier, including Product Owner, Chief Specialist and Onboard & Wayside Equipment Department Line manager, having successfully completed his education at the Technical University of Gliwice, PL with a MSc Engineer in Electronics and Telecommunication.

Given his extensive experience in this sector, Andrzej will focus on the development of our portfolio strategy together with our experts, presenting Frauscher as the leading solutions provider across the rail industry.

Together with Andrzej, I am very much looking forward to implementing new and innovative technologies into our products to meet the mobility challenges of tomorrow.

Best regards,

Michael Thiel CEO
